

Nov. 16th Independent Study Meeting

Lysa Benton with Jennifer Hall

Actions since last meeting.

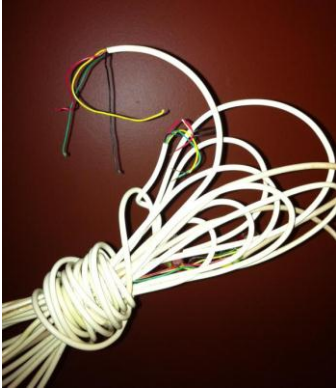

1. Spoke with several welders and construction people to discuss possible wall to hold/display weaving.
2. Took photos of gallery at Mass Art

3. Ordered reed, only one of sizes was correct. Sent the small one back for an exchange. Used the reed I had to get started. Using just one color for now till I get the gesture correct.
4. Started several small weavings... and restarted.

5. Found some electrical wire from a reconstruction project! Matches the reed. Looks white in photo below but it is same tone as reed.

6. Began wall weaving... a few times! This is the final one.
